Carton Baffles

INFO@AKUSTUS.COM

CARTON

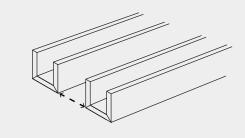

Whatever their orientation or arrangement, Carton Baffle's lines lead to more peaceful soundscapes and more stunning environments. The system's aluminum frame comes equipped with baffle hooks so that installing the baffles is as easy as just pushing them onto the frame. With Carton Baffles covering the ceiling, you can elevate the atmosphere of any room.

Product Care

09

Handling & Storage

Handle products with care so as to avoid folding the polyester felt, chipping its edges, or indenting its faces. Store products in their original containers in a well-ventilated area until the intended application environment is ready for installation. Allow products to acclimatize to environmental conditions. Lay them flat on their faces; do not stand them on their edges. Protect from moisture, heat, direct sunlight, and the elements.

Warranty

AKUSTUS warrants the construction and finish of all our products to be free from defects in material and workmanship for a period of 1 year from the date of purchase.

ΛΚUSTUS

Maintenance

Lightly brush or gently vacuum to remove dust from polyester felt. Clean with warm water and mild, non-toxic soap to remove spills. Test solution on an inconspicuous spot before applying to more visible areas. Blot with a dry cloth after applying the solution to avoid saturating the material. Avoid applying too much pressure when cleaning the products. CARTON
