Quartz 3D Panels

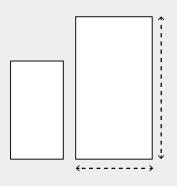

INFO@AKUSTUS.COM

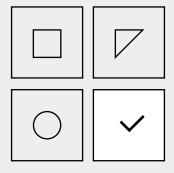

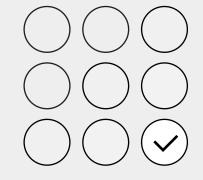

Our latest work is inspired by light refracting through stained glass. As the slopes transition from rising to falling, light falls unevenly on the panel, creating dynamic shadows and a sense of motion. Whether in calm neutrals or vibrant tones, Quartz is sure to be a showstopper.

How to Specify

Step by step instructions on how to specify <u>Quartz</u> <u>3D Panels</u>.

01

02

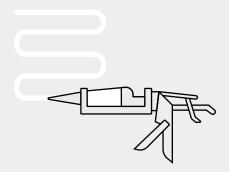

Choose panel size. (pg 03)

02

Choose configuration or create your own. (pg 04) 03

Choose colour. (pg 05-07)

04

Choose installation method. (pg 08)

Dimensions

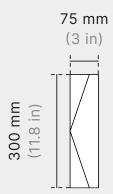

Small

Product Specifications

Quartz 3D Panels

Composition

100% polyester fibre

VOC Emissions

CDPH (CA 01350)

Antimicrobial Testing

Mould & mildew resistant

Fire Rating

- ASTM E84 Class A
- CAN/ULC-S102.2-10

Declare.

Sustainability

- 100% recyclable
- LBC Red List free
- Contributes to LEED certification
- Free of toxic substances and of off-gassing
- Made with ~60% recycled content from plastic water bottles

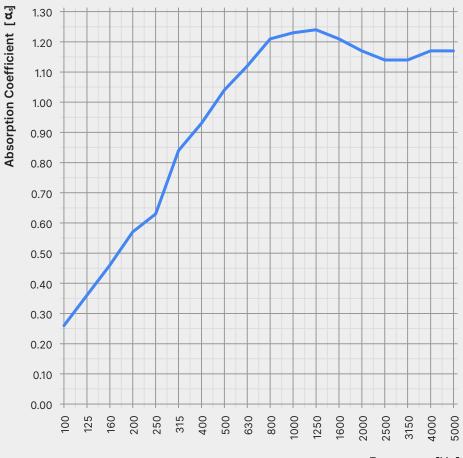

Colour & Texture Variations

The felting and dyeing process that forms the material contributes to its unique texture but also to variations in texture and colour from panel to panel. Products will be provided within an acceptable range of variation.

Product Care

10

Handling & Storage

Handle products with care so as to avoid folding the polyester felt, chipping its edges, or indenting its faces. Store products in their original containers in a well-ventilated area until the intended application environment is ready for installation. Allow products to acclimatize to environmental conditions. Lay them flat on their faces; do not stand them on their edges. Protect from moisture, heat, direct sunlight, and the elements.

Warranty

AKUSTUS warrants the construction and finish of all our products to be free from defects in material and workmanship for a period of 1 year from the date of purchase.

Maintenance

Lightly brush or gently vacuum to remove dust from polyester felt. Clean with warm water and mild, non-toxic soap to remove spills. Test solution on an inconspicuous spot before applying to more visible areas. Blot with a dry cloth after applying the solution to avoid saturating the material. Avoid applying too much pressure when cleaning the products.
