

Valley Baffles

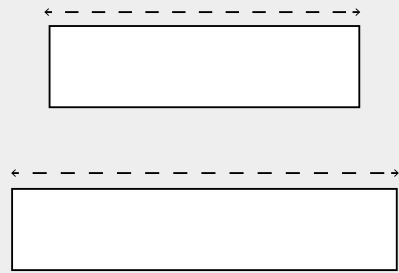

The dips and slopes of Valley Baffle create fascinating visuals from no matter which angle you view them from. While the panel material absorbs excess sound energy, the slanted faces of the baffle cause sound waves to reflect and diffuse more evenly within the room. Let Valley help you create a room that's wonderful to be in and to look at.

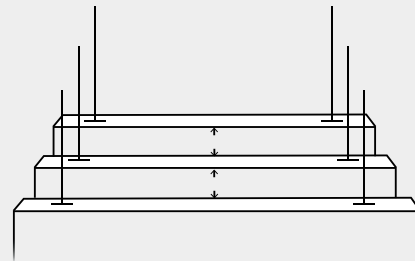

How to Specify

Step by step instructions on how to specify Valley Baffles.

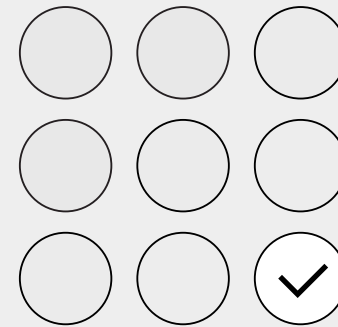

01

Choose baffle size.
(pg 03)

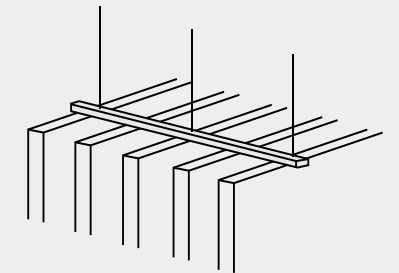

02

Choose baffle spacing.
(pg 04)

03

Choose colour.
(pg 05)

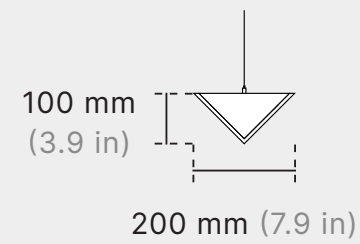

04

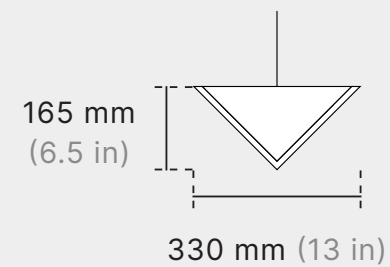

Choose installation method.
(pg 06-07)

Dimensions

Design A

Design B

Standard Dimensions (mm)

200 W x 1220 L x 100 H

200 W x 2440 L x 100 H

200 W x 2745 L x 100 H

330 W x 1220 L x 165 H

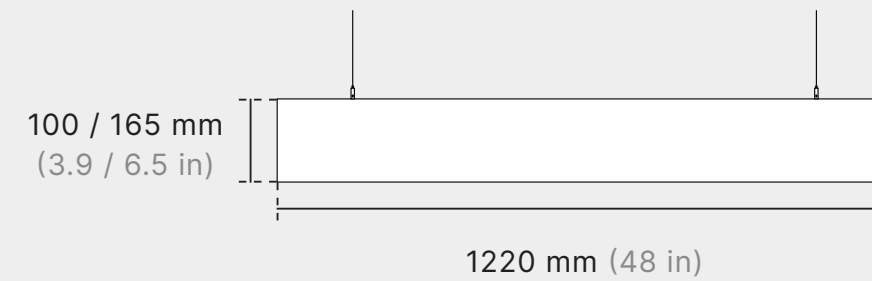

330 W x 2440 L x 165 H

330 W x 2745 L x 165 H

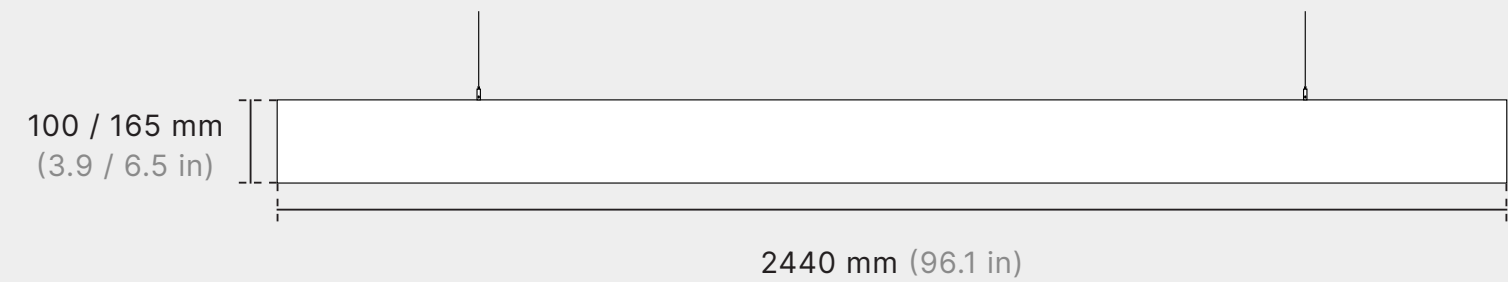

Customization

Width, Length, and Height can be customized to fit your space.

All colours available in 9, 12, 18, and 24 mm unless noted otherwise.

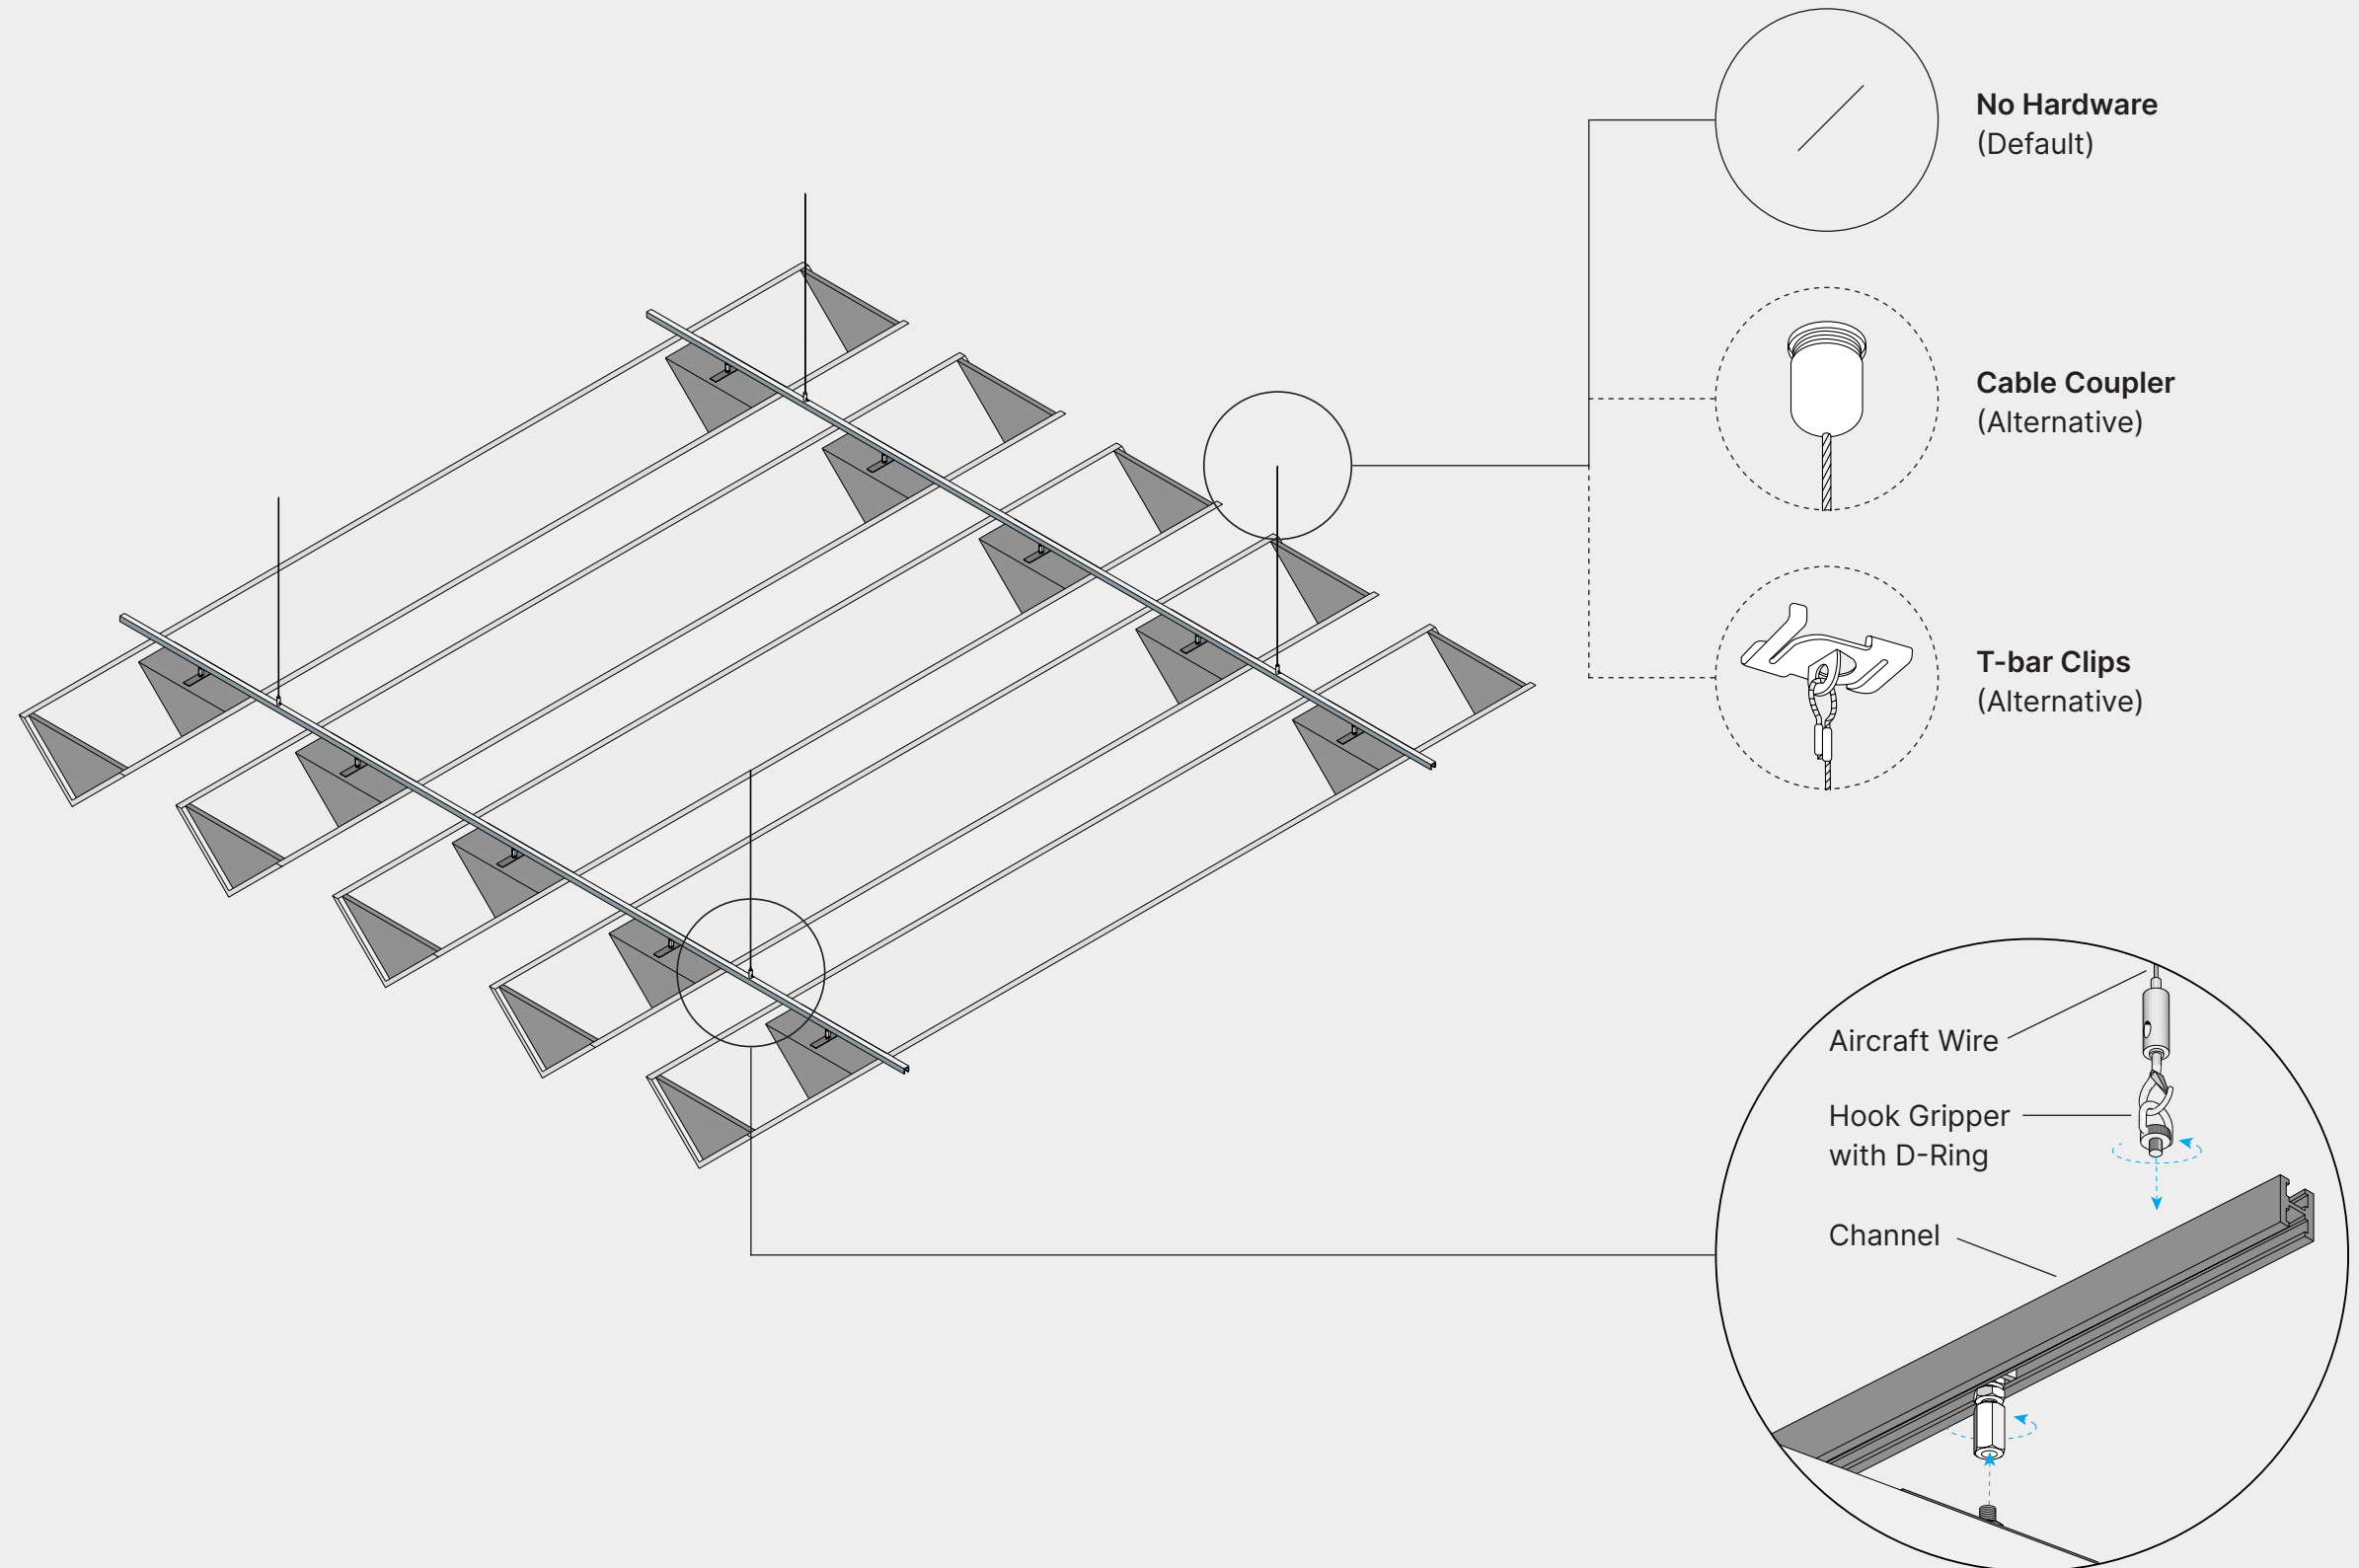

* 12 mm / 24 mm only

Installation Option 01

Baffle Cloud Suspension Kit

Baffles are attached to channels and suspended in an array.

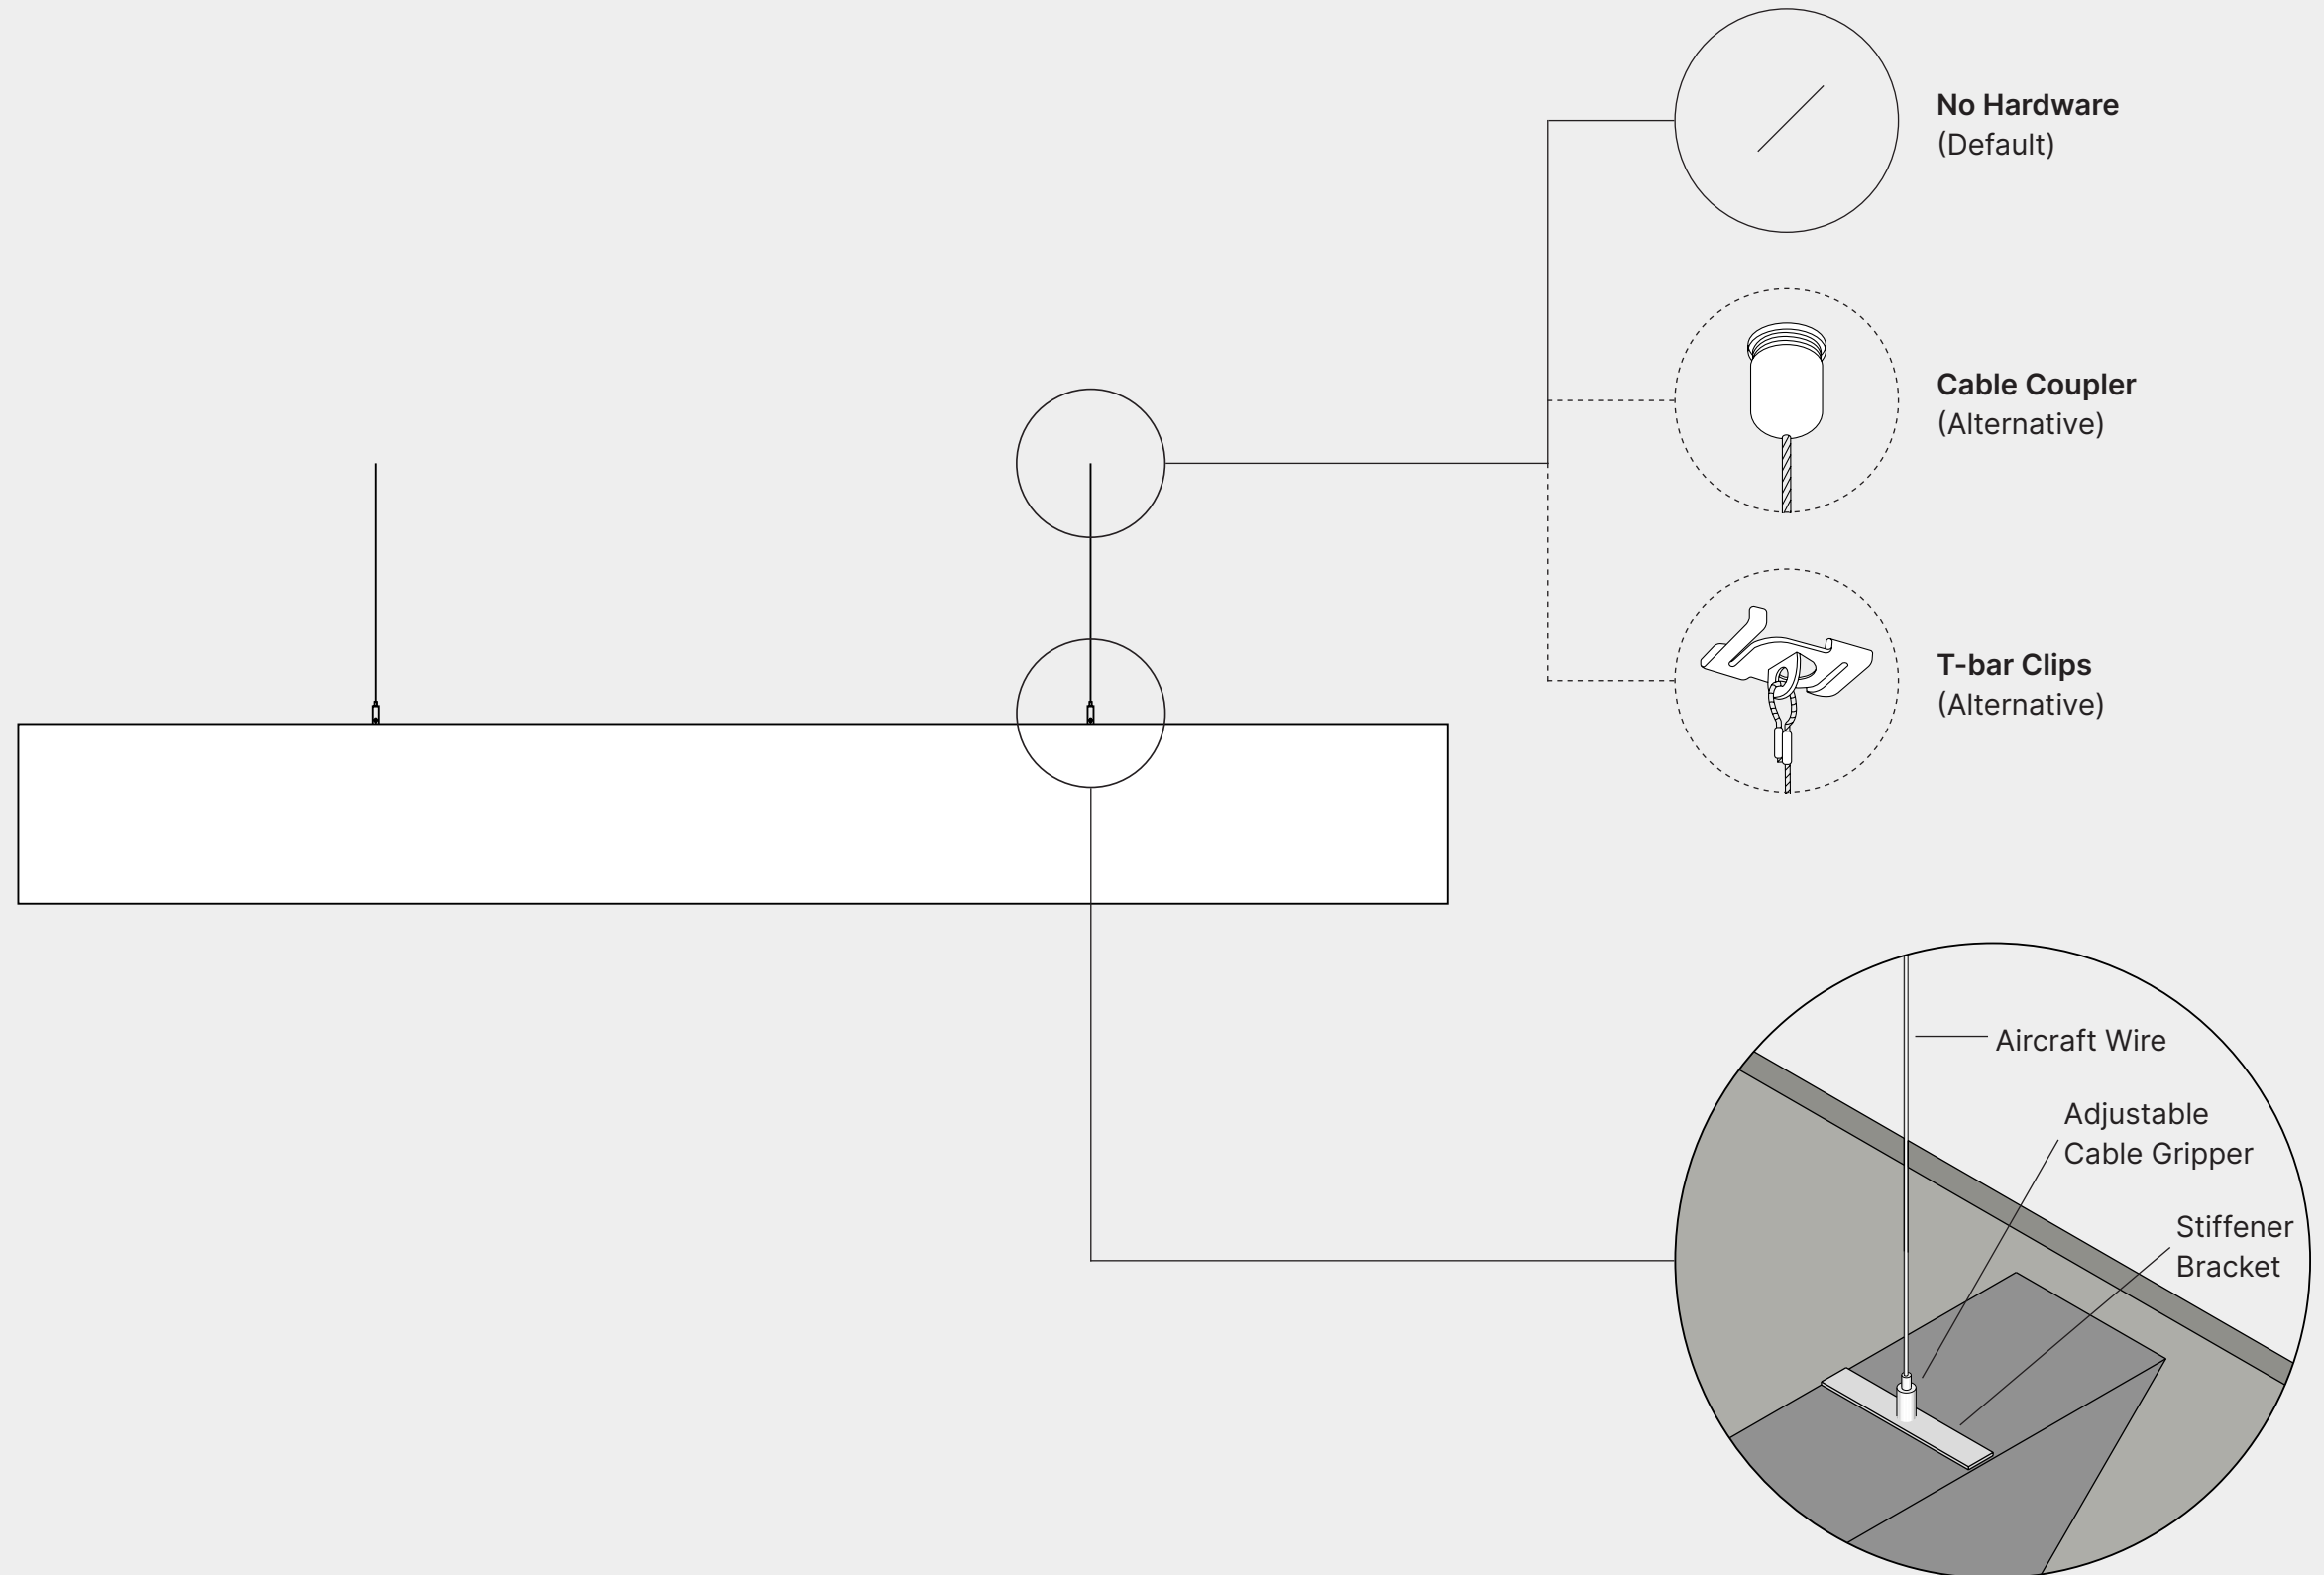

- Reduces the number of hanging points on the ceiling
- Hanging points can be moved along the channels

Installation Option 02

Individual Baffle Suspension Kit

Each baffle is suspended by its own set of aircraft wires.

Product Specifications

Valley Baffles

Composition

100% polyester fibre

VOC Emissions

CDPH (CA 01350)

Antimicrobial Testing

Mould & mildew resistant

Fire Rating

- ASTM E84 Class A
- CAN/ULC-S102.2-10

Declare.

Sustainability

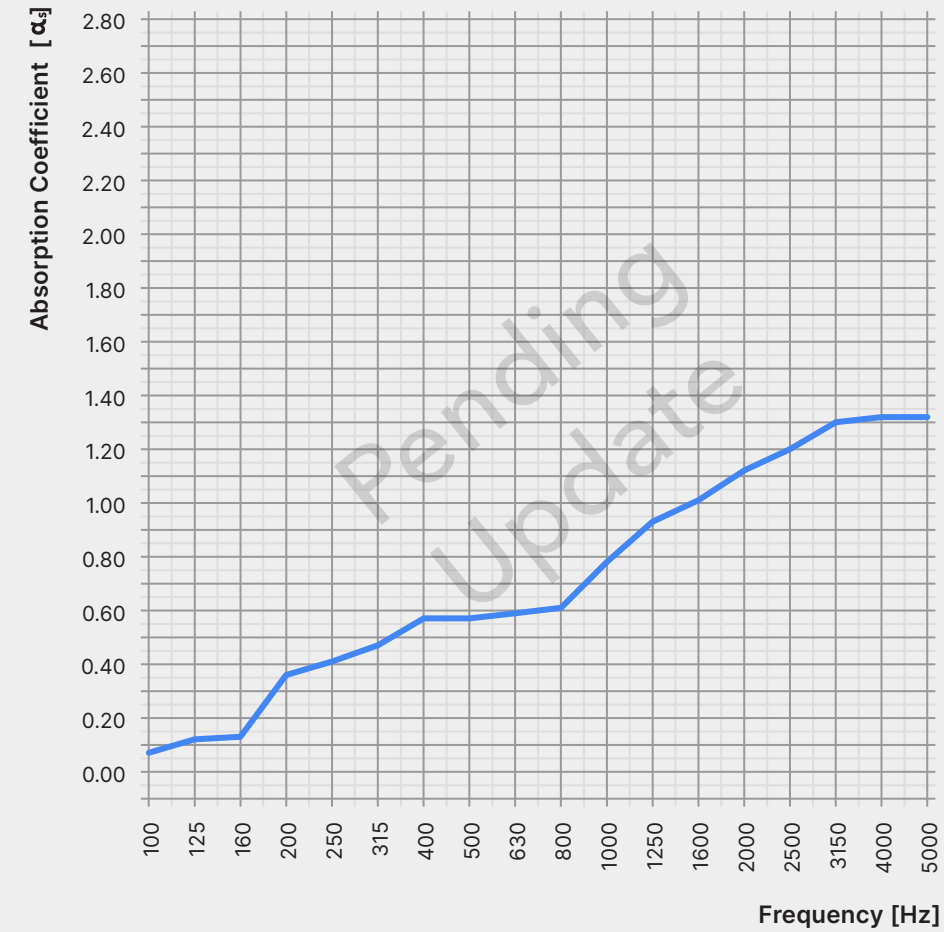

- 100% recyclable
- LBC Red List free
- Contributes to LEED certification
- Free of toxic substances and of off-gassing
- Made with ~60% recycled content from plastic water bottles

Colour & Texture Variations

The felting and dyeing process that forms the material contributes to its unique texture but also to variations in texture and colour from panel to panel. Products will be provided within an acceptable range of variation.

Sound Absorption Graph

The following values reflect the acoustic properties of the product as tested in accordance with ASTM C423-09a.

200	250	315	400	500	630	800	1000	1250	1600	2000	2500	NRC	SAA
0.36	0.41	0.47	0.57	0.57	0.59	0.61	0.78	0.93	1.01	1.12	1.20	0.70	0.72

Product Care

Handling & Storage

Handle products with care so as to avoid folding the polyester felt, chipping its edges, or indenting its faces. Store products in their original containers in a well-ventilated area until the intended application environment is ready for installation. Allow products to acclimatize to environmental conditions. Lay them flat on their faces; do not stand them on their edges. Protect from moisture, heat, direct sunlight, and the elements.

Warranty

AKUSTUS warrants the construction and finish of all our products to be free from defects in material and workmanship for a period of 1 year from the date of purchase.
